Contents

FX rate changes can cause considerable volatility in terms of profitability for corporates and banks. This has been shown to have a negative impact on enterprise value and even threaten the continued existence of companies at times. This webinar addresses the process of market risk management. We identify which positions are exposed to risk and analyse how these risks can affect corporates.

- ▲ The different types of risk – direct and indirect FX risk
 - ▲ Approaches for your risk strategy
 - ▲ The practice-oriented use of hedging instruments: futures and options
-

Structure

- ▲ Video presentation of the training topics
 - ▲ Training topics and collection of formulas in PDF format
 - ▲ Examples of calculations in Excel
 - ▲ Self-assessment
 - ▲ FAQs
-

Methodology

Our webinars provide a brief theoretical input, followed by the implementation in Excel using easily understandable examples. You can download the examples discussed.

Duration: approx. 45 minutes.
